# **PRESTATYN TOWN COUNCIL**

## **COMMUNITY ACTIVITIES REPORT**

On Thursday 16<sup>th</sup> May 2024, the Community Liaison Officers held a focus group meeting with pupils from Prestatyn High School. The meeting was arranged for the CLO's to gain knowledge and understanding about the youths of the community, including their hobbies and interests as well as the Town Councils involvement within the community.

We were joined by 6 pupils and Jo Wynne-Eaton who sourced the pupils on our behalf. All of whom were from different backgrounds, different characteristics and varied opinions.

We asked them questions about what they do after school, such as hobbies, what music they listen to and what they would want to do on the weekend and half term/holidays.

This graph demonstrates the hobbies and interests of the pupils. Sports activities were the most common activity; however, pupils expressed their oncer that there is a lack of sports activities within the community, and that Y Morfa needs a lot of repairs as the children are using their jumpers and collecting large amounts of grass to fill the potholes/ holes in the fences.

*The graph below indicates the responses given.*

The most popular sporting activity was cycling and mountain biking. The children informed us that they make their own jumps by Y Shed. This is a dangerous activity as it is not a monitored area and has various health and safety concerns regarding the wellbeing of those participating. It is crucial that the next generation have hobbies and interests to engage them and to discourage anti- social behaviour.

## **HOW COULD THIS BE IMPROVED?**

Plans for the previously discussed skate park and bike park could be reinstated and actioned for further investigation once more, providing a safe space for youths to come after school and on weekends to facilitate their hobby.

More sports clubs/ different types of sports and activities for the youths to participate in. This will enable them to gain new skills and learn about a new sport, whilst developing different interests. Prestatyn Town Council Officers can contact other sports organisations in neighbouring towns and ask if they have the capacity to facilitate another team/ session in Prestatyn and Meliden.

The sports groups that are currently present within the community could be advertised more and this can be shared via the schools, and PTC noticeboards across the community with session times, ages and contact numbers.

## **ANTI SOCIAL BEHAVIOUR OF YOUTHS**

Within recent months Prestatyn Town Council have been made aware of the increase in anti-social behaviour by residents and by North Wales Police.

To discuss this, and express concerns a meeting was held 17.06.24 at Prestatyn Town Council and was attended by Mayor Adrian West, Cllr Bob Murray (Chair of CDRC), Locum Town Clerk and RFO Nigel Acott, Administration Officer Jessica Owens, PC Chloe Bellows, PC Ben Garnett and PC Steven Gunning.

A representative from Savills, Air Cadets and Army Cadets were unable to attend. The minutes have been forwarded to them.

Four arrests were made 11/6/2024 on the retail park due to hate crimes and anti-social behaviour. The behaviour is a daily occurrence with residents being afraid to visit the retail park. This behaviour occurs everyday from 4pm-10pm and is mainly ages 10-16 that cause disturbance within the town centre, retail park and train station.

To help tackle this an increased police presence is on the retail park within the affected hours. NWP are in contact with Prestatyn High School and the Youth Justice Service regarding the behaviour.

The school believe that this could be due to the lack of resources and activities available for the youths of the community. Jo Wynne-Eaton PHS Community Focused School Manager is eager to set up a youth centre, targeted by anti-social behaviour.

A meeting has been arranged by Jo at PHS to discuss the Anti-Social behaviour. The feedback will be reported at the next CDRC meeting in October on how this behaviour could be averted.

### **HOW CAN PTC SUPPORT THIS?**

#### **Wicked Wales film group**

A meeting with Wicked Wales was held yesterday regarding film studies and future events. It was also discussed that they have free film classes in Rhyl, and we questioned whether Prestatyn can be involved and have free weekly sessions due to potential grant funding by Wicked Wales. Funding can be received to commence this of summer 2025 for PTC due to the current commitments of the organisation.

### **Mobile Gaming van**

Wicked Wales have access to a mobile gaming van which is £150 per session. A session is 2/3 hours and features mobile gaming devices such as Xboxes and Play Stations. This is an activity that could be looked at during the summer months or even a weekend if available and could be located at various locations within Prestatyn and Meliden giving the youths of a particular age and interest in gaming something to do.

# SUMMER SANDCASTLE COMPETITION

**DO YOU MAKE THE BEST SAND CASTLES?**

**JOIN US AUGUST \*\*TBC\*\* 12pm-3pm  
THE BEACH BY THE NOVA FOR OUR  
FAMILY FUN AFTERNOON**

**FREE TO ENTER!!!**

# **Prestatyn Town Council**

## **Summer Sandcastle Competition and Family Fun Day 2024 Proposal**

The idea of this event is to utilise a small area of the beach outside the Nova Prestatyn in front of the Red Boat Ice Cream Parlour located on central beach. We invite families to come and build their own sandcastles where the winners will be judged by the Mayor and Consort. Prizes will be given for 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup>.

Entry is free and we encourage participants to provide their own equipment for the day, whether this is a deck chair to sit on, towels for the beach or their own bucket and spade to build their sandcastles. We would also like to play old fashioned sports day games such as the egg and spoon race, sack race and 3-legged race, as well as other activities such as a bouncy castle.

The date and time of the event are yet to be confirmed as we are awaiting confirmation of the tide from the coast guard and if lifeguards, coastguards and RNLI are available to ensure the safety of the event due to its proximity to the sea. We are aiming for an afternoon in August with the event running approximately from 12pm- 3pm (timings are tidal dependant)

Prestatyn Town Council Officers will be present to man the event and ensure the safety of all attendees and to follow the correct health and safety procedures of the event.

We would like to provide live music through a speaker at the event to help boost the atmosphere and would also like children's character Blippi! And Tyler the local mermaid to join us at the event.

## Costings table

| ITEM                             | COST                                                     |
|----------------------------------|----------------------------------------------------------|
| BLIPPI<br>(Children's Character) | £55 for 30 minutes. Interactive games<br>and singing etc |
| Punch and Judy Hire X2 Shows     | £375.00                                                  |
| Bouncy Castle Hire               | £350                                                     |
| Giant Deck Chair Hire            | £200                                                     |
| Old Fashioned Sports Day Games   | £0                                                       |
| <b>TOTAL</b>                     | <b>£980</b>                                              |

Hi there,

Thank you so much for coming to yesterday's meeting, I hope you found it productive and useful and I am looking forward to seeing what we can achieve together for our community.

Our priority action points following on from this meeting are:

1. Develop an information sharing point for positive activities for young people – Town Council to lead
2. Develop the rationale for greater levels of youth provision – funding and research to be discussed at task and finish group
3. Strengthen the relationship with ShopWatch

**Actions to date:**

1. Please remember to send the details of positive activities for young people over the summer to Gracie [events@prestatyntc.co.uk](mailto:events@prestatyntc.co.uk) and 01745 881953.
2. Proposed date of task and finish group 5<sup>th</sup> August – please let me have your availability
3. JWE to attend ShopWatch meeting on 4<sup>th</sup> July and feed back to the group

**Next Forum Date:**

End of September for the next Youth Partnership forum, please send any agenda items you have for this. I would like to include a presentation from a group in school who are undertaking a piece of social action to redevelop the MUGA.

Once again many thanks for your time and input into this work and I look forward to working with you more.

Annwyl Cyngor Tref Prestatyn

### Toiledau Cyhoeddus yn Sir Ddinbych

Ysgrifennaf atoch ynghylch â'r dyfodol ynglŷn â'r ddarpariaeth y toiledau cyhoeddus ym Mhrestatyn. Fel y byddwch yn ymwybodol, mae Cyngor Sir Ddinbych yn adolygu ei ddarpariaeth o doiledau cyhoeddus ar draws y sir ar hyn o bryd, gan na allwn fforddio darparu'r gwasanaeth hwn mwyach yn y ffordd y caiff ei ddarparu ar hyn o bryd.

### Cefndir

Ein cyllideb net ar gyfer toiledau cyhoeddus ar draws y sir (gan gymryd incwm i ystyriaeth) yw £270,000. Fodd bynnag, yn aml rydym yn gorrario ar y gyllideb hon oherwydd y gall incwm amrywio ac rydym yn aml yn wynebu costau cynnal a chadw ychwanegol na ellir eu cynnal o fewn y gyllideb £270,000. Y gwir gost i'r Cyngor ar gyfer darparu toiledau cyhoeddus ar draws y sir yw oddeutu £322,000 y flwyddyn.

Mae'r cyngor yn gorfod delio gyda phwysau o tua £25miliwn er mwyn gosod cyllideb gytbwys ar gyfer 2024/25, ac roedd hynny yn cynnwys gwneud arbedion/toriadau sy'n gyfanswm o tua £10miliwn. Fel rhan o'r gyllideb honno, tybiwyd y bydd isafswm o £200,000 yn cael ei dynnu o'r gyllideb toiledau cyhoeddus o tua £270,000.

Dear Prestatyn Town Council

### Public Toilets in Denbighshire

I am writing to you regarding the future provision of public toilets in Prestatyn. As you will be aware, Denbighshire County Council is currently reviewing its provision of public toilets across the county, as we can no longer afford to provide this service in the way it is currently provided.

### Background

Our net budget for public toilets across the county (taking income into account) is £270k. However, we often overspend on this budget because income can fluctuate, and we often incur additional maintenance costs that cannot be contained within that £270k budget. The true cost to the Council of providing public toilets across the county is c.£322k per annum.

The council has to deal with pressure of around £25m in order to set a balanced budget for 2024/25, and that involved making savings/cuts totalling around £10m. As part of that budget, it has been assumed that a minimum of £200k will be removed from the public toilets budget of around £270k.

Ein Cynllun Ariannol Tymor Canolig yn nodi y dylai'r Cyngor fod yn bwriadu cymryd camau i leihau'r gwariant net o tua £21M yn 2025/26 i bennu cyllideb gytbwys. Rydym yn rhagweld senario tebyg ar gyfer 2026/27 a 2027/28.

Rydym yn gorfod gwneud rhai penderfyniadau anodd iawn yn erbyn y cefndir ariannol hwn ynglŷn â pha wasanaethau y gall y Cyngor fforddio eu darparu yn y dyfodol. Mae'n bendant yn amlwg iawn y bydd yn rhaid i'r Cyngor fod yn llai ac y bydd yn darparu llai.

**Mae'n bwysig nodi na fydd yna unrhyw ofyniad cyfreithiol i'r Cyngor ddarparu toiledau cyhoeddus.** Fodd bynnag, mae'n ofynnol i'r Cyngor:

1. Ddarparu tystiolaeth ei fod wedi adolygu anghenion y boblogaeth leol; a
2. Datblygu Strategaeth yn dangos sut y bodlonir yr anghenion hyn ar hyn o bryd neu yn y dyfodol, er enghraifft, drwy Gynlluniau Toiledau Cymunedol.

### Asesiadau o anghenion

Felly, rydym wedi cynnal asesiad o anghenion i'n helpu i ddatblygu Strategaeth Toiledau Lleol newydd ar gyfer 2024-2026. Mae'r ddogfen hon yn nodi'r angen am doiledau ym mhob un o'r trefi, yn defnyddio methodoleg yn seiliedig ar yr argymhellion ar gyfer asesu cymarebau toiledau a ddarperir gan y corff dyfarnu gwobrau 'Toiled y Flwyddyn'.

Our Medium-Term Financial Plan states that the Council should be planning to take action to reduce net expenditure by a further £21m in 2025/26 to set a balanced budget. We are forecasting a similar scenario for 2026/27 and 2027/28.

It is against this financial backdrop that we are having to make some very difficult decisions about what services the Council can afford to deliver in future. It is certainly very clear that the Council will have to be smaller, and that it will deliver less.

**It is important to note that there is no legal requirement for the Council to provide public toilets.** However, the Council is required to:

1. Provide evidence that it has reviewed the needs of the local population; and
2. Develop a Strategy that evidences how these needs are being met, or will be in the future, for example through Community Toilet Schemes.

### Needs assessment

We have therefore undertaken a needs assessment to help us develop a new Local Toilet Strategy for 2024-2026. This document identifies the need for toilets in each of our towns, using a methodology based on the recommendations for assessing toilet ratios provided by the awarding body 'Loo of the Year' Awards.

Fel y gellir gweld o'r ddogfen asesu anghenion atodedig, mae angen diffiniedig i dref Prestatyn gael cyfleusterau toiledau. Mae'r angen hwn yn gyfwerth â:

- 33 ciwbicl merched
- 17 ciwbicl dynion
- 6 gyfleuster anabl
- 3 cyfleuster newid babanod
- 1 toiled Lleodedd Newid

Nid yw'r ddarpariaeth bresennol o doiledau cyhoeddus ym Mhrestatyn yn bodloni'r angen diffiniedig. O ystyried y casgliad hwn mae'n amlwg bod angen i'r Cyngor ddatblygu strategaeth i geisio bodloni'r angen diffiniedig. Fodd bynnag, o ystyried sefyllfa ariannol y Cyngor, nid oes modd i ni gadw pethau fel ag y maent nac ychwanegu at bortffolio toiledau cyhoeddus y Cyngor.

Yn ei hanfod, mae darparu toiledau cyhoeddus ym Mhrestatyn angen bod yn gost niwtral i Gyngor Sir Ddinbych ac rydym yn agored i drafod yr holl ddewisiadau ar gyfer cyflawni hynny gyda'r Cyngor Tref.

Byddem yn agored i'r syniad o drosglwyddo'r toiledau cyhoeddus yn y dref i Gyngor Tref Prestatyn. Byddem hefyd yn hapus i drafod cadw'r toiledau cyhoeddus ym Mhrestatyn yn agored os yw'r Cyngor Tref yn barod i ariannu costau llawn eu rhedeg a'u cynnal, neu os gellir canfod ffordd arall i'w gwneud nhw'n gost niwtral i Gyngor Sir Ddinbych, er

As can be seen from the attached needs assessment document, there is a defined need for the town of Prestatyn to have toilet facilities. That need equates to:

- 33 female cubicles
- 17 male cubicles
- 6 disabled facilities
- 3 baby change facility
- 1 changing places toilet

The current provision of public toilets in Prestatyn does not meet the identified need. Given this conclusion it is clear that the Council needs to develop a strategy to try and meet the identified need. However, given the financial position of the Council, this cannot be to maintain the status quo nor add to the council's portfolio of public toilets.

Essentially, the provision of public toilets in Prestatyn needs to be cost neutral for Denbighshire County Council, and we are open to discussing all options to achieve that with the Town Council.

We would be open to the idea of transferring the public toilets in the town to Prestatyn Town Council. We would also be happy to discuss keeping the public toilets in Prestatyn open if the Town Council is prepared to fund the full cost of running and maintaining them, or if another way can be found to make them cost neutral to Denbighshire County

enghraifft, drwy gynyddu'r tâl a godir am eu defnyddio.

Gofynnwn i'r Cyngor Tref ystyried yr opsiynau hyn yn ffurfiol.

### **Strategaeth Toiledau Cyhoeddus**

Rydym yn ymwybodol y byddai'r Cyngor Tref (a llawer o breswylwyr ac ymwelwyr) yn siomedig os byddai'r toiledau cyhoeddus ym Mhrestatyn yn cau. Felly, fel rhan o'n hadolygiad o'r Strategaeth Toiledau Lleol, rydym yn ystyried archwilio dewisiadau eraill i sicrhau y gellir parhau i gwrdd ag anghenion am doiledau cyhoeddus yn Sir Ddinbych, hyd yn oed os nad yw'r cyngor sir ei hun yn darparu toiledau cyhoeddus mwyach.

Un agwedd o'r strategaeth honno fydd annog busnesau i ymuno â Chynllun Toiledau Cymunedol y Cyngor.

Mae Cyngor Sir Ddinbych yn cynnig taliad cyfradd safonol o £500 i fusnesau ar hyn o bryd i fod yn perthyn i'r cynllun toiledau cymunedol.

Ar hyn o bryd, un darparwr Cynllun Toiledau Cymunedol yn unig sydd yna yn Sir Ddinbych (yn Llangollen). Byddwn yn ystyried ychwanegu mwy o fusnesau at y cynllun hwnnw fel ffordd o leihau'r nifer o doiledau cyhoeddus sy'n gorfod cau ac fel ffordd o gwrdd ag anghenion y gymuned a nodwyd yn y ddogfen asesu anghenion.

Council, for example, by charging more for their use.

We would like to ask the Town Council to formally consider these options.

### **Public Toilets Strategy**

We are aware that the Town Council (and many residents and visitors) would be disappointed if the public toilets in Prestatyn were to close. As part of our Local Toilet Strategy review, we are therefore looking to explore other options to ensure that public toilet needs in Denbighshire can continue to be met, even if the county council itself is no longer providing public toilets.

One aspect of that strategy will be to encourage businesses to join the Council's Community Toilet Scheme.

Denbighshire County Council currently offers businesses a flat-rate payment of £500 to belong to the community toilet scheme.

At present there is only one Community Toilet Scheme provider in Denbighshire (in Llangollen). We will be looking to add more businesses to that scheme as a way of mitigation for any public toilets that have to close, and as a way of looking to meet the community needs identified in the needs assessment document.

### **Beth rydym yn ei ofyn i'r Cyngor Tref?**

Gyda hyn i gyd mewn golwg, hoffem ofyn i chi ystyried:

A oes gennych ddiddordeb mewn archwilio'r dewis i drosglwyddo toiledau cyhoeddus presennol y Cyngor yn Ninbych i berchnogaeth y Cyngor Tref?

1. A oes gennych ddiddordeb mewn ariannu cost llawn rhedeg a chynnal y toiledau cyhoeddus yn Ninbych fel y gall Cyngor Sir Ddinbych barhau i'w cadw nhw yn agored?
2. A ydych yn ymwybodol o unrhyw fusnesau a fyddai'n briodol i ni eu hystyried ar gyfer y Cynllun Toiledau Cymunedol? Dylent fod wedi eu lleoli'n strategol (e.e. o fewn pellter cerdded byr o ganol y dref neu'r ardaloedd twristiaeth prysuraf) a chael safon briodol o ddarpariaeth.

I gynorthwyo'n trafodaethau, rydym wedi amgáu'r dogfennau canlynol:

- a) Asesiad o anghenion interim, sy'n cynnwys data ystadegol yn dangos yr angen (neu ddiffyg angen) am doiledau cyhoeddus ym mhob cymuned yn Sir Ddinbych ble mae yna angen wedi'i nodi, neu sydd â thoiled cyhoeddus a gynhelir gan y Cyngor Sir ar hyn o bryd.
- b) Asesiad portffolio, sy'n cynnwys manylion yr asedau toiledau

### **What is our ask of the Town Council?**

With all of this in mind, we would like to ask you to consider:

1. Are you interested in exploring the option to transfer the Council's existing public toilets in Denbigh to the ownership of the Town Council?
2. Are you interested in funding the full cost of running and maintaining the public toilets in Denbigh so that Denbighshire County Council can continue to keep them open?
3. Are you aware of any businesses that might be appropriate for us to consider for the Community Toilet Scheme? They should be strategically located (i.e., within a short walking distance of the town centre or the busiest tourist areas) and have an appropriate standard of provision.

To aid your discussions, we have attached the following documents:

- a) An interim needs assessment, which contains statistical data showing the need (or lack of need) for public toilets in every community in Denbighshire where there is an identified need, or which currently has a County Council-run public toilet.
- b) A portfolio assessment, which includes details of the public toilet

cyhoeddus yr ydym yn gofyn i chi eu hystyried

**Hoffem dderbyn eich ymateb ffurfiol i'r llythyr hwn erbyn 5ed o Orffennaf.**

Mae hyn oherwydd ein bod yn bwriadu cyflwyno adroddiad i'n Cabinet ym mis Medi ble byddwn yn gwneud argymhellion am ddyfodol toiledau cyhoeddus yn Sir Ddinbych.

Yn y cyfamser, os byddwch yn dymuno i ni fynychu cyfarfod o'r Cyngor i drafod hyn ymhellach gyda chi mewn unrhyw ffordd, yna gallwch gysylltu â ni.

Cofion cynnes,

Paul Jackson

Pennaeth Priffyrdd a Gwasanaethau  
Amgylcheddol  
Cyngor Sir Ddinbych

[toiledaucyhoeddus@sirddinbych.gov.uk](mailto:toiledaucyhoeddus@sirddinbych.gov.uk)

assets we are asking you to consider.

**We would like to receive your formal response to this letter by 5<sup>th</sup> July.**

This is because we plan to take a report to our Cabinet in September in which we will be making recommendations about the future of Denbighshire's public toilets.

If, in the interim, you would like us to attend a Council meeting or discuss this further with you in any way, please do not hesitate to get in touch.

Kind regards,

Paul Jackson

Head of Highways & Environmental  
Services  
Denbighshire County Council

## Introduction

Under the requirements of Part 8 of the Public Health (Wales) Act 2017, we are required to develop and publish a Public Toilet Strategy.

The Strategy should identify how we assess the need for public toilets in Denbighshire, and how we will manage this need.

**Note:** There is no legal requirement for the Council itself to provide public toilets, however the Council is required to:

1. Provide evidence that it has reviewed the needs of the local population
2. Developed a Strategy that evidences how these needs are being met, or will be in the future, for example through Community Toilet Schemes.

This needs assessment will be used to help the Council develop its Local Toilet Strategy for 2024-2026.

We will provide:

1. Definitions of what may be considered a public toilet
2. Outline the methodology we have used to identify which communities which pass the criteria for a needs assessment
3. Provide a breakdown of toilet need within each community which currently has public toilets owned or operated by Denbighshire County Council, and/or which we assess as being in need of public toilet provision

A full needs assessment will be carried out before the next Strategy is reviewed in 2026.

**Note:** there will be some communities within Denbighshire which have public toilets, but which do not pass the assessment criteria to be included in the public council's toilet strategy. We will include these toilets in our assessment of current provision, however these would be considered 'additional' public toilets and will have no impact on the way that remaining communities are assessed for their needs.

## What is a public toilet?

Public toilets (sometimes called public conveniences) are toilet facilities which the public can use. These can include purpose-made toilet blocks, or toilets within existing buildings such as offices, shops, hotels and restaurants.

Public toilets can be charged for their use, but to be considered a public toilet, there should be no other charges incurred. For example, a toilet in a café that requires you to buy a drink or food item before you can use the toilet would be a private customer toilet, rather than a public toilet.

## Methodology for assessing the need for public toilets in Denbighshire

The methodology we intend to use will be to consider the 'toilet ratio' of each community in Denbighshire, and then to apply the additional considerations from the Statutory Guidance (listed on the next page). We will then consult with the public, local town and community councils, and a range of charity or third sector organisations to see if people agree with our analysis of need, and to identify any additional concerns or additional needs that cannot be provided from statistical data cross-referencing alone.

### Statistical analysis: which communities need public toilets?

The first step in assessing local needs is to analyse existing data and cross-reference it with what we know about existing local toilet provision.

To do this, we will use 'toilet ratios'. This means the number of public toilets available for every certain number of people in the local population. The following recommendations on assessing toilet ratios are provided by the awarding body 'Loo of the Year' Awards<sup>1</sup>:

- At least one toilet facility should be provided in every settlement with a population of over 5000.
- In town centres and tourist areas toilets should be within a short walking distance, and should ideally be at a max of 300m centres in the busiest areas and max 500m centres generally in town centres.
- Major centres, transport hubs and visitor attractions should include at least one 'Changing Places' toilet.
- Female = 1 cubicle per 550 women and female children.
- Male = 1 cubicle or urinal per 1,100 men and male children
- 1 unisex accessible toilet cubicle for every 10,000 population.
- 1 unisex baby changing facility per 10,000 population.

---

<sup>1</sup> <https://www.loo.co.uk/46/Toilet-Ratios> (last accessed 12th January 2024)

The Statutory Guidance (issued 2018) for developing Local Toilet Strategies states that Local Authorities should give consideration to a range of factors when assessing the needs for public toilets. We will state how we intend to assess each factor, in conjunction with the toilet ratios outlined on the previous page:

**1. An assessment of the local population, including age, gender and additional health needs:**

We will use the basic premise of 1 cubicle per 550 female and 1 cubicle per 1100 male population, with additional consideration of:

- a. Wales' average population of over 65s is 21.3% of the usual population. We will add one additional female cubicle per 550 population and one additional male cubicle per 1100 population for every 5% of the population older than the Wales average of 21.3%
- b. Wales' average population of children aged under 4 years old is 4.9% of the usual population. We will add one additional baby change facility requirement for every additional 5% of population aged under 4 greater than the Wales average of 4.9%
- c. 1 additional disabled cubicle for every 5% percent of population with a disability greater than the Wales mean percentage of 21.1% of the population

**2. An assessment of the gender balance of the current provision**

We will use the existing toilet ratio guidance to assess the gender balance of toilet provision (at least 1 toilet for every 550 females and 1100 males in the local population)

**3. An assessment of locations, including popular destinations and distance between facilities**

We will use existing toilet ratio guidance to assess whether there are toilets within 300m of the centre of each community over 5,000 in population, and within 500 metres of public car parking in other busy locations.

#### 4. An assessment of availability and accessibility, opening hours, usage

We have no way of assessing the usage of all public toilets currently controlled by the Council, however we can estimate usage in fee-charging toilets based on income received. When we audit public toilet provision from other providers (e.g. shopping centres, supermarkets) as part of our substantive needs assessment, we will aim to understand their availability and usage wherever possible.

#### 5. Charges, access for people with disabilities, Changing Places and baby changing facilities

10 out of 20 toilets currently provided by Denbighshire County Council charge between 40p for entry. 10 toilets are free of charge.

A detailed breakdown of the opening hours, number of unisex disabled cubicles and baby change facilities currently provided by the Council (up until April 2024) can be found in a separate document entitled ***Denbighshire County Council Public Convenience portfolio assessment 2024***

Changing Places are toilets which can be used by people with profound and multiple disabilities (PMLD). These toilets will have more space than a 'standard' disabled toilet, and will be fitted out with additional equipment such as hoists, adult changing tables, showers and grab rails.

For Changing Places toilet need, no clear definition of a 'major hub' was provided with the toilet ratio guidance, however for the purposes of this Needs Assessment, the Council will use the following definition:

- a. A community with a resident population of more than 10,000 people **or**
- b. A community which receives more than 10,000 day visits per week

Denbighshire County Council is currently aware of 2 x changing places toilets within the county:

- Ysbyty Glan Clwyd – more information on the Changing Places website: [Ysbyty Glan Clwyd | Changing Places Toilet](#)

- Tesco Prestatyn Superstore – more information on the Changing Places website:

[Tesco Prestatyn Superstore | Changing Places Toilet](#)

## **6. An assessment of the condition of existing facilities**

We will assess Council-provided facilities and any facilities which are part of the Community Toilet scheme. We will not assess the condition of facilities which are not owned or maintained by the Council and which are not part of the Community Toilet Scheme.

## **7. Consideration of seasonal variations, including local events and seasonal population growth**

When considering seasonal variations, we will use the Scarborough Tourism Economic Activity Monitor (STEAM) model to consider visitor numbers.

We have no concise way to assess visitor need versus residential need, but halving the recommended toilet ratio of at least 1 facility per 5,000 of population to ensure that there is at least 1 facility per 2,500 visitors per week in addition to the residential toilet ratios should ensure there is adequate provision. Therefore in assessing day visits, we propose to ensure there are at least additional 2 female cubicles, 1 male cubicle, 1 disabled facility and 1 baby change facility per 2,500 visitors per week (as a whole year average).

## **8. Consideration of social factors such as, whether facilities are a target for abuse and anti-social behaviours or perceived to be in a dangerous location**

For Denbighshire County Council assets we will use staff reports, and customer service requests received via the Council's C360 form to assess the suitability of public toilets currently owned by the Council for future use (whether by the Council or by any other body or organisation).

At this stage we are not including an assessment of privately-owned public toilets such as toilets in supermarkets, motorway-style service stations etc, however we may do this in future reviews of provision within the county.

## **9. Consideration of future requirements, including local development plans**

The Strategy is currently set to be reviewed every 2 years. Long-term the Council will seek to work with private providers of public toilets to review access to public toilets and ensure that both current and future population needs are being met.

## **10. Consideration of statistics in relation to population statistics; deprivation measures and projections for demographics such as older people, children, benefit claimants etc**

Population statistics have already been considered at 'parish' level when determining toilet ratios. Short-term the Council will be seeking to address existing imbalances in public toilet provision across Denbighshire and longer-term will seek to understand how the changing population will impact toilet use

## **11. Analysis of current usage, including popular times, population assessment, transient visitors, such as van and lorry drivers, or those on coaches and buses**

As previously stated, Denbighshire County Council does not have footfall monitoring facilities in any of its current portfolio, however can use income received on charging toilets to calculate the total number of visits to these toilets. The population assessment will include both resident population from NOMIS Labour Market data, and last financial year STEAM data to assess transient need.

## Assessment of need, by community and visitor population

This assessment will use statistical data from the NOMIS Labour Market website<sup>2</sup>, and STEAM tourism data provided to Denbighshire County Council to assess the baseline need for toilet facilities within each of Denbighshire's main towns.

DRAFT

---

<sup>2</sup> Visit <https://www.nomisweb.co.uk/reports/localarea> and search for town/community as a 'Parish'

## Prestatyn

### Residential need:

- 9,827 females – requirement for 18 female cubicles
- 9,022 males – requirement for 9 male cubicles
- 24.5% of the population of Prestatyn is aged over 65, 3.2% **higher** than the average for Wales – therefore no additional need for facilities based on an older population
- 32.7% of Prestatyn households have at least one person with a disability, compared to the Wales average of 21.1% - requirement for 1 disabled toilet for general recommendation of 1 per 10,000 population, and 3 additional toilets for each 5% of population over the Wales average who has a disability. Total requirement of 4 disabled toilets
- Requirement for at least 1 baby change facilities (at least 1 per 10,000 population)
- 5.7% of the population of Prestatyn are aged under 4 years old, 0.8% **higher** than the average for Wales. Therefore no **additional** need for facilities based on a younger population
- Requirement for at least 1 Changing Places toilet.

### Visitor need:

- Average day visitor numbers for 2022 = 19,365 visitors per week (1,007,000 visitors over the whole year)
- Additional requirement for 15 female cubicles, 8 male cubicles, 2 disabled change facilities and 2 baby change facilities

### TOTAL NEED:

- 33 female cubicles
- 17 male cubicles
- 6 disabled facilities
- 3 baby change facilities
- 1 Changing Places Toilet

## Rhuddlan

### Residential need:

Rhuddlan has a population of 3,709 therefore there is no residential need for a toilet facility in this location

### Visitor need:

- Average day visitor numbers for 2022 = 2,288 visitors per week (119,000 visitors over the whole year)

### TOTAL NEED:

- No defined need for this community to have toilet facilities

## Llanelwy (St Asaph)

### Residential need:

Llanelwy (St Asaph) has a population of 3,355 therefore there is no residential need for a toilet facility in this location

### Visitor need:

- Average day visitor numbers for 2022 = 2,365 visitors per week (123,000 visitors over the whole year)

### TOTAL NEED:

- No defined need for this community to have toilet facilities

## Denbigh

### Residential need:

- 4,523 females – requirement for 9 female cubicles
- 4,463 males – requirement for 4 male cubicles
- 17.2% of the population of Denbigh is aged over 65, 4.1% **lower** than the average for Wales – therefore no additional need for facilities based on an older population
- 29.6% of Denbigh households have at least one person with a disability, compared to the Wales average of 21.1%. As the general recommendation is for 1 disabled toilet per 10,000 population, and Denbighshire County Council are recommending 1 additional disabled toilet for each 5% of population over the Wales average who has a disability, there is a total requirement of 1 disabled toilet for Denbigh
- No baseline requirement for baby change facilities as the population is fewer than 10,000
- 6% of the population of Denbigh are aged under 4 years old, 1.9% **higher** than the average for Wales. Therefore no additional need for facilities based on a younger population
- No requirement for a Changing Places toilet as the population is fewer than 10,000

### Visitor need:

- Average day visitor numbers for 2022 = 5,923 visitors per week (308,000 visitors over the whole year)
- Additional requirement for 4 female cubicles, 2 male cubicles, 2 disabled change facilities, and 2 baby change facilities

### TOTAL NEED:

- 13 female cubicles
- 6 male cubicles
- 3 disabled facilities
- 2 baby change facilities

## Ruthin

### Residential need:

- 2,800 females – requirement for 5 female cubicles
- 2,661 males – requirement for 3 male cubicles
- 21.8% of the population of Ruthin is aged over 65, 0.5% **higher** than the average for Wales – therefore no additional need for facilities based on an older population
- 27.3% of Ruthin households have at least one person with a disability, compared to the Wales average of 21.1%. As the general recommendation is for 1 disabled toilet per 10,000 population, and Denbighshire County Council are recommending 1 additional disabled toilet for each 5% of population over the Wales average who has a disability, there is a total requirement of 1 disabled toilet for Ruthin
- No baseline requirement for baby change facilities as the population is fewer than 10,000
- 6% of the population of Ruthin are aged under 4 years old, 1.9% **higher** than the average for Wales. Therefore no **additional** need for facilities based on a younger population
- No requirement for a Changing Places toilet as the population is fewer than 10,000

### Visitor need:

- Average day visitor numbers for 2022 = 4,788 visitors per week (308,000 visitors over the whole year)
- Additional requirement for 2 female cubicles, 1 male cubicles, 1 disabled change facility, and 1 baby change facility

### TOTAL NEED:

- 7 female cubicles
- 4 male cubicles
- 2 disabled facilities
- 1 baby change facility

## Llangollen

### Residential need:

Llangollen has a population of 3,658 therefore there is no residential need for a toilet facility in this location

### Visitor need:

- Average day visitor numbers for 2022 = 5,269 visitors per week (308,000 visitors over the whole year)
- Additional requirement for 4 female cubicles, 2 male cubicles, 2 disabled change facilities, and 2 baby change facilities

### TOTAL NEED:

- 4 female cubicles
- 2 male cubicles
- 2 disabled facilities
- 2 baby change facility
- 1 Changing Places Toilet

## Corwen

### Residential need:

Corwen has a population of 2,325 therefore there is no residential need for a toilet facility in this location

### Visitor need:

- Average day visitor numbers for 2022 = 3,000 visitors per week (156,000 visitors over the whole year)
- Additional requirement for 2 female cubicles, 1 male cubicle, 1 disabled change facility, and 1 baby change facility

### TOTAL NEED:

- 2 female cubicles
- 1 male cubicle
- 1 disabled facility
- 1 baby change facility

## Summary of current County Council provision

As part of the next Strategy review and accompanying needs assessment, we will aim to provide an assessment of provision of public toilets from other providers.

For the purposes of this current needs assessment, we will only be assessing provision of toilets which are currently owned or operated by Denbighshire County Council (up to April 2024)

A full breakdown of provision by town is available in a separate document entitled *Denbighshire County Council: Public Toilet portfolio assessment*.

## Rhyl

Rhyl's needs have been assessed as:

- 43 female cubicles
- 23 male cubicles
- 9 disabled facilities
- 5 baby change facilities
- 1 Changing Places Toilet

Across all locations in Rhyl there are:

- 30 female cubicles
- 10 male cubicles
- 2 disabled facilities, with a further two decommissioned due to parts being obsolete
- 1 unisex toilet
- 3 baby change facilities in female toilets, 2 baby change facilities in male toilets

Based only on provision of Denbighshire County Council's public toilets, the public toilet shortfall for Rhyl is therefore as follows:

- 13 female cubicles
- 13 male cubicles
- 7 unisex disabled facilities
- There are adequate baby change facilities across both genders, however consideration should be given to ensuring an equal provision of baby change facilities in unisex/gender neutral facilities, or across both sets of gendered facilities
- There is a need for Rhyl to have at least one Changing Places toilet.

## Prestatyn

Prestatyn's needs have been assessed as:

- 33 female cubicles
- 17 male cubicles
- 6 disabled facilities
- 3 baby change facilities
- 1 Changing Places Toilet

Across all locations in Prestatyn there are:

- 12 female cubicles
- 7 male cubicles
- 3 disabled facilities, with a further one decommissioned due to parts being obsolete
- 2 unisex toilet facilities
- 1 baby change facility in female toilets
- Prestatyn has a Changing Places toilet located in the Tesco Superstore

Based only on provision of Denbighshire County Council's public toilets, the public toilet shortfall for Prestatyn is therefore as follows

- 21 female cubicles
- 10 male cubicles
- 6 unisex disabled facilities
- 3 unisex baby change facilities

## Dyserth

There is no identified need for Dyserth to have public toilets based on residential population data. STEAM tourism data is not available for Dyserth, and therefore the Council deems that there is unlikely to be serious seasonal need for public toilets either.

In Dyserth there are:

- 1 female cubicle
- 1 male cubicle

Based only on provision of Denbighshire County Council's public toilets, the provision of public toilets in Dyserth exceeds the local need for them.

## Rhuddlan

There is no identified need for Dyserth to have public toilets based on residential population data. STEAM tourism data is not available for Rhuddlan, and therefore the Council deems that there is unlikely to be serious seasonal need for public toilets either.

In Rhuddlan there are:

- 2 female cubicles
- 1 male cubicle
- 1 unisex disabled cubicle

Based only on provision of Denbighshire County Council's public toilets, the provision of public toilets in Rhuddlan exceeds the local need for them.

## Llanelwy (St Asaph)

There is no identified need for Llanelwy (St Asaph) to have public toilets based on residential population data. Averaged over the whole year, STEAM tourism data for Llanelwy suggests there is insufficient visitor numbers for the city to need public toilets.

In Llanelwy there are:

- 2 female cubicles
- 1 male cubicle
- 1 unisex disabled cubicle

Based only on provision of Denbighshire County Council's public toilets, the provision of public toilets in Llanelwy exceeds the local need for them.

## Denbigh

Denbigh's needs have been assessed as:

- 13 female cubicles
- 6 male cubicles
- 3 disabled facilities
- 2 baby change facilities

In Denbigh there are:

- 4 female cubicles
- 3 male cubicles
- 1 unisex disabled facility
- 1 unisex baby change facility

Based only on provision of Denbighshire County Council's public toilets, the public toilet shortfall for Denbigh is therefore as follows:

- 9 female cubicles
- 3 male cubicles
- 2 unisex disabled facilities
- 1 unisex baby change facility

## Ruthin

Ruthin's needs have been assessed as:

- 7 female cubicles
- 4 male cubicles
- 2 disabled facilities
- 1 baby change facility

In Ruthin there are:

- 2 female cubicles
- 1 male cubicle
- 1 unisex facility
- 1 unisex disabled facility
- 1 unisex baby change facility

Based only on provision of Denbighshire County Council's public toilets, the public toilet shortfall for Ruthin is therefore as follows:

- 5 female cubicles
- 3 male cubicles
- 1 unisex disabled facility

## Llangollen

Llangollen's needs have been assessed as:

- 4 female cubicles
- 2 male cubicles
- 2 unisex disabled facilities
- 2 baby change facilities
- 1 Changing Places Toilet

In Llangollen there are:

- 10 female cubicles
- 3 male cubicles
- 1 unisex facility
- 1 unisex disabled facility
- 1 unisex baby change facility, and 1 baby change facility within female facilities

Based only on provision of Denbighshire County Council's public toilets, the public toilet shortfall for Llangollen is therefore as follows:

- 1 unisex disabled facility
- 1 unisex baby changing facility
- 1 Changing Places toilet

## Corwen

Corwen's needs have been assessed as:

- 2 female cubicles
- 1 male cubicle
- 1 disabled facility
- 1 baby change facility

In Corwen there are:

- 3 unisex facilities
- 1 unisex disabled + baby change facility

Based only on provision of Denbighshire County Council's public toilets, the public toilet need for Corwen has been met in terms of total number of cubicles, although some consideration could be given to ensuring availability of single-sex facilities in the future.

## **Prestatyn Town Council Proposed Free Parking Days**

**2024-2025**

### **Friday 29<sup>th</sup> November**

*Prestatyn Town Council Christmas Light Switch On*

This could increase the number of spectators for the light switch on due to being able to park near the event.

### **Saturday 30<sup>th</sup> November**

*PBF WinterFest Christmas Market*

This could help increase the footfall at the event increasing expenditure within the town and use of facilities

### **Sunday 1<sup>st</sup> December**

*PBF WinterFest Christmas Market*

This could help increase the footfall at the event increasing expenditure within the town and use of facilities

### **Tuesday 24<sup>th</sup> December**

*Christmas Eve*

This may encourage residents from the community and further afield to participate in some last-minute shopping, boosting the local economy over the Christmas period.

### **Saturday 4<sup>th</sup> January 2025**

*First Saturday of 2025*

This is the first Saturday of 2025. This could encourage residents to resume back to their daily activities after the Christmas break and shop locally with potential sales and Christmas stock clearances.
