48 CLIMATE CHANGE PM34

Deputy Town Clerk presented a report (copies circulated with agenda). She went on to outline actions taken nationally and globally in order to avoid the catastrophic rise in global temperatures and to limit the rise to 1.5°. A rise of even 0.5° more will result in more extreme weather events and a rise in sea levels. A number of initiatives play a prominent role in the desire to achieve this goal through recycling, energy efficiency, planting more trees, tackling single use plastic, green transport. With ambitious action this is achievable.

Denbighshire County Council recently declared a Climate Emergency, as have a number of UK towns, Machynlleth being the first in Wales to do so. Correspondence with Machynlleth and Denbighshire has taken place to establish their current status and how Prestatyn Town could emulate identified actions

Further discussion took place regarding the size of the problem and how best this town could begin to take positive action. Delegation of a Climate Change Champion at both Officer and Councillor level is required, however Deputy Town Clerk advised that this will potentially take resources, both financial and staffing away from other initiatives.

RESOLVED That Prestatyn Town Council declare a motion for Climate Change Action to be ratified at the next Committee meeting, including a report on potential actions and their impacts. That a representative from Waste Collection at DCC be invited to a future committee meeting

Edwards also presented Debbie's report. Cllr L Muraca added her congratulations for her work
